

Colonel Peter Nelson Fuller

Colonel Peter Nelson Fuller of Andover, Massachusetts entered the Army in 1980 as an Armor second lieutenant upon his graduation from the University of Vermont.

COL Fuller's initial assignment was with the 1st Bn, 37th Armor, 1st Armored Division, Katterbach, Germany, where he served as a Tank Platoon Leader, Scout Platoon Leader and Company Executive Officer. He was next assigned to the 1st Bn, 40th Armor, 5th Infantry Division (Mechanized), Ft. Polk, Louisiana and served as a Battalion Motor Officer and Tank Company Commander. His next assignment was as an Assistant Professor of Military Science at Shippensburg University, Shippensburg, Pennsylvania.

COL Fuller's acquisition experience began as a Test and Evaluation Officer for several Army ballistic missile defense (Star Wars) systems with the US Army Material Systems Analysis Activity, Aberdeen Proving Ground, Maryland. He then completed a Training With Industry tour with Loral Vought Systems in Dallas, Texas. Following his TWI experience, he was served as the Assistant Director for Acquisition (PATRIOT) with the Ballistic Missile Defense Organization in Washington, D.C. He then served as a Systems Coordinator on the Army staff for the TOW missile, Follow On To Tow missile, Improved TOW Acquisition System, Improved Bradley Acquisition System, and Line Of Sight Anti Tank programs.

Following his assignment on Army staff, COL Fuller then served as the product Manager for Single Channel Ground and Airborne Radio System (SINCGARS), Product Manager for the Near Term Digital Radio and Product Manager for the Joint Tactical Radio System while with PEO, Command, Control, Communications and Computer Systems, Ft Monmouth, New Jersey. COL Fuller then served as a faculty member with the Industrial College of the Armed Forces in Washington, DC. COL Fuller assumed his present position as the Project Manager for the Stryker Brigade Combat Team on 1 Jul 04.
